

Glazing your best pots

After the Throwing Marathon, we offer the possibility for a prolonged stay so that you can select work to be glazed and fired with La Meridiana's range of reduction stoneware glazes, fired in the gas kiln. During this second week, you may keep your workspace and continue to practice your throwing skills with continued assistance from the tutor.

Day	Studio work	
Su May 28	Work dries, bisq kiln loaded, candling through the night by our staff.	FREE DAY Possibility of excursions to Florence, Siena or the surroundings.
